## PE NEWS

Hello Clemens Families,

This week in Physical Education class students participated in games and relays involving scooter boards. Students also learned two new tag games to go along with the upcoming holidays: Ghostbuster tag and Zombie line tag. Why is Physical Education so very important for Children? I believe that in our childhood we acquire attitudes, values and skills that stay with us for a lifetime. Children with an active lifestyle are more likely to continue the habit into adulthood. My goal is to make P.E. class a very enjoyable and positive experience for all because I believe they will have these memories forever and the positive attitude that they acquire towards physical activity, sport and play at a young age will stay with them for a lifetime and therefore will appreciate it for the health benefits both mental and physical, for self-expression and social interaction. Thank you and I look forward to another Fun-tastic week of Physical Education next week!

Sincerely,  
Mr. Burnett
