## Philomath Public Schools

June 2018

I am pleased to share with our stakeholders the Philomath School District 17J budget message for the 2018-19 school year, based on the two-year State School Fund (SSF) level of \$8.2 billion. This level of general fund investment in programs and services is strengthened by the significant community support of Philomath voters who, in May of this year, supported a local option levy which expires in 2023. Without this local support, the District would be unable to maintain staffing and programming as reflected in this budget.

This budget is built with an eye on honoring our community investment in our schools, and planning for the anticipated impact of PERS cost increases in 2019-20.
Though this $\$ 20.18$ million general fund budget strives to maintain our work toward achieving our vision, "To graduate every student and trasition each into a job, training, or college," we find ourselves able to sustain our current level of services. We continue to prioritize protection of direct services to students in our budgeting process, with an eye on the key success factors leading to student success.

The great news is that student outcomes in Philomath continue to rank among the best in the State of Oregon. Philomath High School students graduate and complete high school due to our outstanding staff in grades K-12. Part of the reason our graduation rate is so high is the fierce commitment to continuous improvement across all schools. We see ourselves doing well and we push ourselves to be better, because our families entrust their most precious treasures into our care their children. We ask ourselves, how may we move our success with students from "most" to "every"?

Our commitment to our vision is to aim for success beyond high school, creating actively engaged, successful citizens and community members. We are setting a path for ourselves to not simply ensure students walk across the stage at graduation but to reflect our community value of support by handing them off successfully into their next path.

As a district, we have identified key moments to mark in students' progression toward passing through that door after high school. This proposed budget is prioritized to support this important work. We have identified hold steady priorities, such as maintaining class sizes, retention of staff, and maintaining the level of support for students in special education and who are learning English as their second language, and limited new investments that are necessary for our continued progress.

To support our work in grade level reading and math success, we have begun professional development work in implementing Advancement Via Individual Determination strategies at multiple grade levels across all school levels. At our primary and elementary schools, we are focusing on the implementation of an instructional, assessment, and intervention system that supports the success of every child.

We recognize the increasing need for social emotional supports for our students. This budget affords us the opportunity to both increase training and purchase materials to better meet the needs of the students coming to us today. In addition, this budget adds a full-time counseling position to support our youngest learners.

Our commitment to graduate every student and successfully transition them into their next steps may be seen in this budget in several areas. First, we are maintaining investment in college and career counseling supports at the high school to help our students set their path toward their " $13^{\text {th }}$ year". In addition, we have markedly expanded supports for students and staff through the addition of a second assistant principal and the hire of a High School Success Coordinator. These additions are designed to have a laser-like focus on student success at Philomath High School. This budget also takes into account roll up costs related to staffing, the most significant portion of any school district budget. Though we are challenged by the level of State School Funding, we are continuing to push our use of limited resources for maximum support of our children.

I am grateful to be completing my third year as the Philomath School District superintendent, and I am thankful to do so in a community so clearly supportive of our students through their election to support the operation of our schools.

Respectfully submitted,

## PHILOMATH SCHOOL DISTRICT FINANCIAL REPORTING AND BUDGET PROCESS

Reporting Entity Philomath School District (the District), was organized under provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools serving grades K-12. A separately elected five-member Board that approves the administrative officials governs the District. The daily operations of the District are under the supervision of the Superintendent. As required by generally accepted accounting principles (GAAP), all activities of the District are included in the basic financial statements.

The District qualifies as a primary government since it has a separately elected governing body, is a legally separate entity, and is fiscally independent. There are various governmental agencies and special service districts, which provide services within the District's boundaries. However, the District is not financially accountable for any of these entities, and therefore, none of them are considered component units or included in the basic financial statements.

The following is an overview of the District's funds:
General Fund - The General Fund is the District's primary operating fund and accounts for all revenues and expenditures except those required to be accounted for in another fund.

Expenditure categories include salaries and associated payroll costs, purchased services, supplies and materials, capital outlay and other general expenses. Expenditures are presented by major function categories that contain program descriptions, budgeted positions and program and services analysis.

Revenues generally come from two main sources: state funding and local property taxes. The state revenue and local property taxes are components of the State School Fund (SSF), which make up almost $76 \%$ of all General Fund revenue.

The SSF is allocated through a school equalization formula that includes initial weighting for the number of students and extra weightings for specific types of students: special education, English Language Learners, poverty, foster care and pregnant and parenting. The calculation consists of five grants including general purpose, transportation, high cost disability, facility and Measure 98 grants.

In addition, voters approved a five-year Local Option Levy in 2013 generating property taxes to be spent specifically in the classroom. In 2018, voters approved a five-year renewal of that levy. The levy comprises $3.2 \%$ of all General Fund revenue.

## Other Funds include:

Student Body Funds - Accounts for revenue and expenditures of all schools' student body funds. The revenue sources are participation fees, donation and fund-raising activities. Individual accounts are kept at each school; this fund summarizes all activity at year-end.

Grant Funds - Accounts for revenues and expenditures of grants restricted for a specific purpose, usually funds received from federal, state and private grants.

Nutrition Services Fund - Accounts for revenues and expenditures for the nutrition services program. Revenue sources include sales of food and subsidies under the National School Lunch and breakfast programs received through the State of Oregon. The District has elected to utilize the services of the

Corvallis School district as it relates to its nutrition service program. Funds received are 'passed through' to the Corvallis School district to cover those expenditures.

Debt Service Funds - Account for the accumulation of resources for, and the payment of, general longterm debt, principal and interest.

Capital Improvement Funds - Account for financial resources used to acquire, construct and/or maintain major facilities (other than those of proprietary funds and trust funds).

Internal Service Funds - Accounts for services provided to other funds (i.e., the General Fund). The district self-insures its unemployment costs, reimbursing actual costs rather than paying a percent of payroll as a premium.

Trust \& Agency Funds - Accounts for funds held in either trust or reserve by the District.

- Retirement Reserve - This account is used to acquire reserve for future costs of the Early Retirement Program as well as current expenditures.
- Classified Employee Reserve Account - If an employee opts out of insurance coverage, the District contributions in excess of an individual employee's actual coverage premium shall be distributed as follows: $\$ 75$ to employee, $\$ 25$ to District (payroll related costs) and the balance shall be deposited into a classified reserve account for insurance related or staff development purposes. These funds are managed by Joint Labor Management Committee (JLMC).

## HOW THE BUDGET IS ADOPTED

A budget is a financial plan, usually for a one-year period, which is based on estimates of revenues and expenditures. The budget is the basis for appropriations, which create the authority to spend public money. The Superintendent, along with the Business Manager, will submit a budget proposal to the Budget Committee. The Budget Committee, comprised of an equal number of school board members and community volunteers, will review the proposed budget during public open sessions and, once satisfied, will approve the budget. After the Budget Committee approves a budget, the budget is forwarded to the School Board for further public testimony and review. A summary of the approved budget and notice of budget hearing is published in the local newspaper, five to thirty days in advance of the hearing. The notice indicates where the complete budget document is available for review.

After the budget hearing and consideration of public testimony, the School Board adopts the budget prior to June 30.

SUPPLEMENTAL BUDGETS If the school district receives unanticipated revenues or a change in financial planning is required, a supplemental budget may be adopted to authorize a change in the budget within a fiscal year. A supplemental budget cannot be used to authorize a tax levy.

The School Board may adopt a supplemental budget at a regular public meeting if expenditures in the supplemental budget are less than 10 percent of the annual budget of the fund being adjusted. If the expenditures are greater than 10 percent, the School Board must first publish the supplemental budget and hold a special hearing.

## HISTORICAL VOTING DATA

MEASURE 5 In November 1990, Oregon voters approved Measure 5, a citizen's initiative limiting total taxes on each property in the state to 1.5 percent of the property's real market value and shifting responsibility for funding public education to the state from the local level.

Measure 5, a constitutional amendment, phased in the tax limit for schools over a five-year period, beginning with a limit of $\$ 15$ per $\$ 1,000$ of property value in 1991-92 and decreasing to a permanent limit of $\$ 5$ per $\$ 1,000$ of value in the 1995-96 fiscal year. Tax limitations do not apply to bonded debt for capital construction.

In response to the requirement that the state replace school tax revenue lost under Measure 5, the legislature created the State School Fund (SSF) and established an equalization formula to allocate revenue to schools on a weighted per student basis.

Since Measure 5 passed, the state's share of funding to schools increased from about 30\% to about 70\%.
MEASURE 50 In 1997, Oregon voters approved Measure 50, an initiative referred by the legislature to implement the provisions of Measure 47. The purpose of Measure 50 was to clarify legal ambiguities in the original measure and change the property tax system from a tax base system (where a dollar amount is levied) to a tax rate system (where a permanent rate is levied). As a result, 1997-98 assessed values were rolled back to 1995-96 values minus $10 \%$ and future assessed value increases were capped at $3 \%$ per year plus exceptions such as the value of new construction. The district's permanent rate was set at $\$ 4.8664$ per $\$ 1,000$ of assessed value. Other provisions limited the use of the bonded debt and required a $50 \%$ voter turnout for property tax elections except at general elections (November of evennumbered years).

MEASURE 98 In November 2016, Oregon voters approved Measure 98, a dropout prevention and college readiness initiative. Measure 98 requires state funds to be distributed to public school districts for approved plans to establish or expand career and technical education programs, to establish or expand college-level educational opportunities for students and to establish or expand dropout prevention strategies in high schools. Other descriptive terms include CTE and High School Graduation/College \& Career Readiness.

MEASURE 99 In November 2016, Oregon voters approved Measure 99, the Outdoor School Education Fund financed by state Lottery funds.

LOCAL OPTION LEVY Since 1999, School districts have been allowed to request voter approval for local property tax levies to support operations and/or capital needs. This represents the only opportunity for district voters to increase revenue for district operations since Measure 5 passed in 1990. Local option capacity represents the "tax gap" between the Measure 5 tax rate limit based on real market value and the Measure 50 tax rate based on assessed value.

As revised by the 2007 legislature, the amount a district can receive under a local option levy is restricted to the least of:

- Measure 5 limit: revenue received by the district from local option taxes imposed; or
- Dollars per student: \$1,000 per average daily membership, weighted (ADMw), growing by 3\% per year as of 2008-09; or
- Percent of state resources: $20 \%$ of the combined total of the state general purpose grant, transportation grant, facility grant and high cost disability grant.

Operating levies cannot exceed five years. Capital levies cannot exceed the lesser of ten years or the expected useful life of the asset(s).

Local option levies for more than a year may be filed as a tax rate. Local option revenue is excluded from the state funding formula.

Voters passed a 5-year local option levy May 21, 2013 election for a $\$ 1.50 / \$ 1,000$ of assessed value of property. On May 15, 2018, voters renewed the local option levy for another 5-year period.

GENERAL OBLIGATION BONDS Districts may levy taxes for the repayment of bonded debt upon voter approval. Tax levies for bonded debt fall outside the limits of Measure 5.

Measure 50 limited the use of bonded debt to funding capital construction and improvements and prohibited using bonds to finance the purchase of equipment or maintenance and routine repairs.

The 2009 state legislature approved a provision of the Oregon Constitution which effectively expanded the range of the qualifying uses of bond proceeds by re-defining "capital costs" as costs of land and of other assets having a useful life of more than one year, including costs associated with acquisition, construction, improvement, remodeling, furnishing, equipping, maintenance or repair. Bonds may not be used to pay for the costs of routine maintenance or supplies.

Voters approved a $\$ 29.5$ million construction/facilities bond measure on the May 2010 ballot to provide funds for much needed repairs, construction and improvements at four schools over a maximum 30 yr . term.

## PHILOMATH SCHOOL DISTRICT REVENUE FUNCTIONS OVERVIEW

## Source: ODE Program Budgeting \& Accounting Manual

General Fund Revenues come from three main sources for the District: state funding, local property taxes and local option levy taxes. The state revenue and local property taxes are components of the State School Fund (SSF), and together with the local option taxes make up over $79 \%$ of all General Fund revenue.

Revenue trends are rising as the Oregon economy continues to strengthen. The SSF is budgeted at \$8.2 billion with a 50/50\% split for the 2017-19 biennium. As the local economy grows, new developments are planned, both residential and commercial, which will assist with increases to both enrollment and property tax revenues.

## LOCAL REVENUE - 1000

1110 Ad Valorem Taxes Levied by District Taxes - Taxes levied on the assessed valuation of real and personal property located within the district which, within legal limits, is the final authority in determining the amount to be raised for school purposes.

1120 Local Option Ad Valorem Taxes Levied by District - Local option taxes on the "Tax Gap" valuation of real and personal property located within the district which, within legal limits, is the final authority in determining the amount to be raised for school purposes. Tax Gap refers to the difference between the Measure 5 tax limit (. 005 * Real Market Value) and the Measure 50 Tax Limit (Sum of permanent tax rate and gap tax rates times Assessed Value). Local option revenue cannot exceed the gap amount so the excluded local revenue is the lesser of (1) Actual Local Option Taxes Received, (2) 2003-05, \$500 per extended ADMw; 2005-07, $\$ 750$ per extended ADMw; 2007-08, $\$ 1,000$ per extended ADMw, (The $\$ 1,000$ limit is increased by $3 \%$ each year starting in 2008-09) or (3) 2003-05 10\%, of the sum of the General Purpose Grant, Facility Grant, Transportation Grant and High Cost Disability Grant; 2005-07 15\% and 2007-08 and after 20\%. The excess is recorded in Source 1110.

1130 Construction Excise Tax - Amounts collected as a result of Senate Bill 1036 from the 2007 legislative session to fund capital improvements to school facilities.

1310 Regular Day School Tuition - Money received as tuition for students attending the regular day schools in the District, including alternative programs entitled to SSF support.

1510 Interest on Investments - Interest received on temporary or permanent investment in United States Treasury bills, notes, bonds; savings accounts; time certificates of deposit; notes; mortgages; or other interest-bearing obligations.

1700 Admissions - Revenue from patrons of a school-sponsored activity such as a concert or football game, sports participation fees, driver's education instruction.

1910 Rentals - Revenue from the rental of either real or personal property owned by the school.
1920 Contributions and Donations From Private Sources - Money received from a philanthropic foundation, private individuals or private organizations for which no repayment or special service to the contributor is expected.

1940 Services Provided to Other Local Education Agencies - Revenues from services provided to other districts, other than for tuition and transportation services. This represents revenues for services provided to Kings Valley Charter School.

1960 Recovery of Prior Years' Expenditure - Refund of expenditure made in a prior fiscal year.
1970 Services Provided to Other Funds - Services provided other funds, such as printing or data processing. Generally, this account is only used in Internal Service Funds.

1980 Fees Charged to Grants - Indirect administrative charges assessed to grants.
1990 Miscellaneous - Revenue from local sources not provided for elsewhere.

## INTERMEDIATE REVENUE - 2000

2100 Unrestricted Revenue - Revenue received as grants by the district that can be used for any legal purpose desired by the district without restriction. Separate accounts may be maintained for general source grants-in-aid that are not related to specific revenue sources of the intermediate governmental unit, and for those assigned to specific sources of revenue as appropriate. For the District, this includes the County School Funds (County share of Federal Forest Reserve Receipts), ESD Apportionment (Nursing Services) and Intellectual Disability Reimbursement (Severe Disability Payment).

2200 Restricted Revenue - Revenue received as grants by the district that must be used for a categorical or specific purpose. If such money is not completely used by the district, it must be returned, usually, to the intermediate governmental unit. Separate accounts may be maintained for general source grants-inaid that are not related to specific revenue sources of the intermediate governmental unit, and for those assigned to specific sources of revenue as appropriate.

## STATE REVENUE - 3000

3100 Unrestricted Grants-In-Aid - Revenue recorded as grants by the District from state funds that can be used for any legal purpose desired by the district without restriction. For the District, this includes the State School Funds (3101), Common School Funds (Investment Returns from School Land, Mineral Resources and Unclaimed Property held by the State of Oregon - 3103), State Managed County Timber (3104), and Other Unrestricted Grants-In-Aid (Local Option Levy Matching Funds - 3199).

3200 Restricted Grants-In-Aid - Revenue recorded as grants by the District from state funds that must be used for a categorical or specific purpose. For the District, this includes funding from our YTP Grant.

## FEDERAL REVENUE - 4000

4200 Restricted Revenue Direct from the Federal Government - Revenues direct from the federal government as grants to the district that must be used for a categorical or specific purpose. This includes Medicaid expenses for contracted services reimbursed as eligible by law.

4500 Restricted Revenue from the Federal Government through the State - Revenues from the federal government through the state as grants to the district that must be used for a categorical or specific purpose. If such money is not completely used by the district, it usually is returned to the governmental unit.

4700 Grants-In-Aid from the Federal Government through Other Intermediate Agencies OTHER REVENUE - 5000

5200 Interfund Transfers - Revenue earned or received from another fund that will not be repaid.
5300 Sale of or Compensation for Loss of Fixed Assets - Revenue from the sale of school property or compensation for the sale loss of fixed assets.

5400 Resources - Beginning Fund Balance.

STATEMENT OF CHANGES IN ACTIVITIES and SOURCES OF FINANCING **
The Philomath School District continues to work towards utilizing all the resources available to the benefit of every student. In this year's budget, investments are made which align with the long range strategic plan, focusing on key success factors established at each grade level. The District will also continue investments in both facilities and technology which will enable these long range plans to be achieved. Additionally, the District will continue its support of both the Special Education programs as well as programs for English Language Learners.
