Celebrating CTE Month: Business Management

The Business Management program of study includes four main classes and numerous subclasses. Students work on job requests for community partners, earn college credit in computer science, and shadow our school's technology department. The program provides classes to improve technology skills such as Microsoft Office, JavaScript, HTML, CSS, and Adobe Suite. Students who complete the pathway will enter the job market with confidence and marketable skills. Business Management courses are taught by Nicole Stueve who has been at PHS for 18 years.

Graduate EVERY student and transition each of them into a job, training, or college.

Forestry students win at Logging Conference

The Philomath Forestry/Natural Resources students attended the Oregon Logging Conference on Friday, Feb. 24. A portion of the students participated in a tour while two five-member teams participated in a skills relay. The students on the tour were led in an industry career based tour. We had two teams compete in the relay that contained the following event: axe throw, choker set, power buck, and cross-cut.
